CONTRACT

POSTAL SERVICES

□ MAIN FEATURES AND EVALUATION SYSTEM

- Services included:
 - Picking-up and distribution of letters, postcards, certified letters, notifications and parcels
- Each company could get 100 points maximum
- 10 points were related to subjective evaluation
- 90 points dealt with objective evaluation

POSTAL SERVICES

☐ CRITERIA RELATED TO CARBON DIOXIDE EMISSIONS EVALUATION

– Indirect : Office network

- Points: 15 / 100
- Type: Objective
- Reason: if one company has more offices than another company, citizens will have to cover less distance when they have to visit a postal office to pick up certain letters and parcels

POSTAL SERVICES

☐ CRITERIA RELATED TO CARBON DIOXIDE EMISSIONS EVALUATION

– Indirect : Office network

- Evaluation: territory is divided in three parts. For each part, the company with the largest office network gets 5 points. The rest are marked proportionally
- Main cities: 5 points.
- Cities with 50.000 inhabitants ore more: 5 points
- Cities with less than 50.000 inhabitants: 5 points

POSTAL SERVICES

☐ CRITERIA RELATED TO CARBON DIOXIDE EMISSIONS EVALUATION

- Direct : Carbon dioxide emissions of the fleet vans
 - Points: 6 / 100
 - Type: Objective
 - Reason: If a fleet of a company is composed by vans which produce less carbon dioxide emissions, this company will get more points because it is more environmental friendly

POSTAL SERVICES

❑ CRITERIA RELATED TO CARBON DIOXIDE EMISSIONS EVALUATION

- Direct : Carbon dioxide emissions of the fleet vans
 - Evaluation: vans assigned to the contract are examined according to their carbon dioxide emissions and their European Standard classification, only when it ranges from 4 stars to 6 stars. If a company fleet produce less emissions and its vans have more European Standard stars, it gets more points

POSTAL SERVICES

❑ CRITERIA RELATED TO CARBON DIOXIDE EMISSIONS EVALUATION

- Direct : Electric, hybrid and liquid propane or butane powered vehicles of the fleet
 - Points: 2 / 100
 - Type: Objective
 - Reason: If a fleet of a company is significantly composed by electric, hybrid and liquid propane or butane powered vehicles, this company will get more points because it is more environmental friendly

POSTAL SERVICES

☐ CRITERIA RELATED TO CARBON DIOXIDE EMISSIONS EVALUATION

- Direct : Electric, hybrid and liquid propane or butane powered vehicles of the fleet
 - Evaluation: the company which has the largest number of vehicles of this kind gets 2 points, and the rest of them are marked proportionally
